FREE YOUR SCHOOL BELL FROM LOAD-SHEDDING!

Load-shedding is more than just annoying! It is also extremely disruptive, especially when it affects the School Bell, the basis of your daily program.

KCS is pleased to offer the following solutions:

KCS Bell 101/B

KCS Bellringer TS-500/B

KCS Power Supply PS/12

Manually Operated Bell

Option #1

Bell 101/B plus Power Supply Model PS/12. Manual push button. **Operates with normal power and during load shedding.**

Price includes installation: R9,718.00
Installation on office building wall with maximum of 10m cabling.

Automatically Operated Bell

Option #2

Bell 101/B with KCS-Bellringer TS-500/B plus PS/12 power supply. Operates automatically during load shedding and normal power. Rings an existing siren automatically (when normal power is available). Can operate manually as well! No automatic ring weekends! Mute switch for holiday and exam times. Variable duration and ring times that easily accommodate your school timetable.

Price includes installation: R19,358.00
Installation on office building wall with maximum of 10m cabling.
