BEAT THE BLACKOUTS!

Solar solutions for your school

Load-shedding is more than just annoying! It is also extremely disruptive, especially when it affects the School Bell.

KCS is pleased to offer the solution: solar power!

The following manual and automatic bell solutions operate fully independently from Eskom power:

KCS Bellringer TS-500/B

Solar Panel

Option #1: Manual Operation

KCS Bell 101/B: Solar Panel with storage, Manual Push Button and installation on office building wall with maximum of 10m cabling. ***Operated by solar power.***

R15,065^{00} PRICE INCLUDES INSTALLATION

Option #2: Automatic Operation

KCS Bell 101/B (x 2) with KCS Bellringer Model TS-500/B: Solar Panel with storage, installation on office building wall with maximum of 10m cabling. ***Automatic or manual operation using solar power.***
